From

A. Ramasami Iyengar Esq BA BL
Deputy Commissioner

To

The Chief Secretary to the
Govt of Elysie

Sir,

I have the honor to submit herewith for sanction an application from the Jodidars of Kemmicé village in Tirunakodde Nasiyam Taluk praying for a loan of Rs 6000 under the Land Improvement Loans Regulation for the restoration of the breached tank in their village.

2. The tank is reported to have breached in 1882-83 and since then the lands below are lying waste except a portion which is cultivated with dry crop.

3. Kemmicé is a very populous Jodi village containing about 350 houses with a population of 1211 including

the 3 hamlets attached to it. The Jodidars are chiefly dependant on the lands under the tank for their means of livelihood -

4. The village together with its 3 hamlets consists of 35 Vrittis and 11 Bhata-manyams - Of these, 28¼ Vrittis are granted as Jodi, to 30 individuals, on a Jodi amount of Rs. 381, and 6¾ Vrittis as Sarva Inam to four individuals - The Bhatamanyams in the village are also held by the Jodidars and Inamdars only.

5. The Jodidars offer all the lands included in their Vrittis as security for the loan and the Inamdars offer to pay in cash their share of the cost of repair of the tank - The Jodidars represent that the lands below the tank yield about 800 Kandies or Pallas of paddy for the landlords' share and that the drylands which are about 2970 acres in extent yield about Rs. 705 in cash and 60 Kandies

of grain - They estimate the value of their share of the village at Rs 19,000 -

6. Mr Sundaram Iyer, who inspected the tank as requested, has submitted a rough estimate amounting to Rs 6,074 for the earth and stone work required for the tank, and states that the irrigable area below the tank is about 80 acres, and that the whole extent can be irrigated if the tank fill twice in the year which is possible, as the catchment is nearly 3 square miles. The work is considered by him as quite feasible and deserving to be undertaken.

7. I have inspected the tank. The security offered by the Jodidars is quite ample, as the value of the village may be fairly estimated at not less than 11 or 12 thousand Rupees.

8. Under these circumstances I strongly recommend that the loan applied for may be sanctioned

4/

repayable in 30 instalments with interest at 4 percent. As the Maundars will pay their share of about Rs. 1200 to-wards the cost as proposed by them, the amount to be advanced by Government will not exceed 5000 Rs. The nagadi paid by the ryots holding dry lands amounting to Rs. 705 will alone be ample security for this loan. On receipt of Government sanction I will get the necessary estimate &c prepared by Public Works Department and arrange for the work being carried out in a satis-factory manner through one of the applicants or through the Public Works Department.

9. The application &c as per Deposit are herewith submitted

I have the honour to be
